SOUL SESSIONS

www.jenniferengler.com

A Soul Session is a way to communicate with your higher consciousness. Our session together is structured with the intention for your highest guidance, purpose and healing as the specific objective. Thus, the focus is on bringing through your soul's wisdom for your present circumstances of your journey, and not predicting the future. I also ask that you trust your own instincts and what you know to be true for you. This means it is important to take whatever I might say during our session and see how it resonates for you, and keep what fits and let go of the rest. I would ask that you not take what I say as more important or of more value than what you know to be true for yourself. These readings are a sacred connection and based on trust. They are private, respectful, and focused on your questions.

Sessions are 60 minutes long via Zoom. There will be time to cover any questions you may have prior to beginning the session. If you would like, I can audio record our session. I will be happy to also create space for you to take notes that may be helpful for you. Given the level of preparation needed, I also require 24 hours notice for cancellation and will charge for the session with less than 24 hours notice.

Prior to our session, I will ask you to sign an agreement that states that you understand and acknowledge that the session is a way to communicate with your higher self and receive information that can help you heal, find your purpose and live your passion. These sessions are a way to honor your soul's wisdom and to support your journey with your own knowing for your authentic self. Thus, the session can be helpful in supporting you in remembering who you are and helping you connect with why you are here. The agreement also states that as the client you take full responsibility to see a licensed physician or a licensed healthcare professional for any physical or psychological ailment or condition as required, that you understand that our session does not take the place of medical care.

Please email me or schedule a complimentary consultation via my website: JenniferEngler.com if you have questions you would like to ask prior to scheduling a session. The cost of the 60 minute session is \$150 payable via Venmo or PayPal.

Soul Session Client Experiences

What a powerful session. I came in not sure what to expect and left mesmerized by information and accuracy. My only regret is that I wish I took notes or recorded the session as Jennifer is the real deal. I'll definitely be coming back for more sessions as a tune-up in my healing journey.

I'm incredibly thankful for the amazing Soul Reading Jennifer provided. The insights that emerged were nothing short of mindblowing. She is a sweet and nurturing soul, and she delivered the information with so much love and compassion. There just aren't enough words to express my gratitude. Her guidance has given me a profound understanding of the emotions I've been carrying, and I'm in awe of the depth it reached. She has such an extraordinary gift, and I encourage her to keep sharing it with the world. This was the most powerful and beautiful session I've ever had, and I would eagerly do it again. Her gift has helped me navigate my healing journey in a way I hadn't imagined. Thank you for this remarkable experience!

My Soul Session with Jennifer was a wonderful experience! I love that the session felt like a dialogue between myself, Jennifer, and our higher selves and guides. I appreciate how she checked in with me during the whole experience to see if and how what was coming in resonated. Jennifer has a very compassionate presence and creates a container of safety, but also gives you space to have your own experience and explore - this allowed me to dig into an emotional and difficult topic with fantastic support. I also received valuable information I never could have accessed on my own, and over the following weeks several of the messages continued to make more sense which was really cool! With regard to the process, I really appreciated her clear boundaries - she kept things on time but I never felt rushed, and she let me know her process for facilitation so I knew what to expect. I would highly recommend Soul Sessions with Jennifer!

I've recently developed a practice to understand how I respond energetically, rather than intellectually, to people and experiences. With Jennifer's guidance in our soul session, I was able to explore some of the deep, longstanding energy and feelings in my body. Her uncanny ability to bridge to and identify past experiences helps me understand my responses in the present day. I feel lighter and more grounded than I have ever felt. Jennifer, you are a gift and your soul sessions are a path to understanding!

As someone who prides herself in being organized and well planned out, I was caught off guard when my life began to move in an unexpected direction. Unfamiliar with a newly discovered inability to get settled within an uncertain future, I reached out to Jennifer for a Soul Reading. Our session provided an immediate sense of peace. Jen's delivery is gentle and nurturing, her words provided deep comfort. I walked away with insight and clarity in many areas of my life. Although my circumstances remained the same, I was returned to a calm, more centered way of being. Jennifer is truly gifted and is who I trust for such a personal and sacred experience.

When I had my Soul Reading with Jennifer I wasn't sure of what to expect, but I was excited to be a part of it! The experience was like none other. I felt so connected to what she was saying and her words were spot on! After our session, I felt focused and understood, and had a real sense of calmness about me. I thoroughly enjoyed my reading and I look forward to another session with her soon!

It was so beautiful and powerful.. it was important to me that I did not feel any tiny doubts about it with you .. My soul trusts you genuinely .. also it gave me strength and helped me understand what was happening around me.. I felt like I didn't want it to end.
